Peculiar Local Interest in the Coming Toledo Gathering

OF BASE BALL LEAGUE PEOPLE.

Probability of There Being Two Applicants for the Wheeling Franchise-Last Night's Bowling Contests-The Races at New Orleans-Programme for the Coming Puglitatic Carnival-Other News in the Domain of Sport.

As exclusively reported in the Inteling to organize the new Inter-state Base Ball League will be held in Toledo on Tuesday, February 4, instead of Janon Tuesday, on the other Wheeling papers yesterday. The likelihood of there being two claimants for the Wheeling franchise makes this meeting of peculiar interest locally. Un-

for the Wheeling Franchise made in meeting of peculiar interest locally. Unless the situation changes, it is probable both Buckenberger's crowd and a local organization will be there as applicants for the franchise.

The opposition to Ruckenberger in his dual role of manager in Trenton and manate in wheeling, is more promuned than before. For the good of the game here, it is carnestly hoped Pluck' will drop Trenton and come to Wheeling. If he doesn't do this it is a two to one shot there will be two applicants for the local franchise in the new leasue, and it's about the same odds the "home" movement will be able to make a better showing at Toledo. In this connection it is interesting to note the Turnot franchise in the Eastern leasue. The ex-Wheeling manager surely is not modest. Not salished with the duchy of Jersey and the principality of West Virginla, he would fain become king of Ontarlo. What next?

come kins of Ontario. What next?

Glasscock's Troubles.

PITTSBURGH. Pa., Jun. 34.—Charles Comiskey, once famous as a National League and an American Association munager, now with St. Paul, is inving a merry war with Jack Glasscock, who is even more famous than Comiskey, as a short-stop. Glasscock claims to have been the victim of a buries game between Loftus, of Columbus, Ohio, and Comiskey, of St. Paul, and he reduces to sign to play with St. Paul until given 1300 per month, instead of 1350, as offered by Comiskey. St. Paul claimed (Ilusscock first, but later Loftus wroth Jack saying that he had permission of mesocock first, but later Lottus wrote Jack saying that he had permission from Corniskey to bargain with Jack, and he at once signed the old man at 1500 per month. Comiskey then Jumped into both Lottus and Glasscock, and as a result Lottus has released Glasscock. The Wheeling colebrity doesn't care to accept the \$150 offered by \$21. Paul, but Comiskey says he will not give the \$300. Glasscock, who was in Pittsburgh to-night announced that he wouldn't play night, announced that he wouldn't play with St. Paul at all.

#### SISTERSVILLE OIL NEWS.

Excitement in the Interior of Tyles County Continues—New Developments, Special Dispatch to the Intelligence SISTERSVILLE, w. Va., Jan. 24.—

The most important well now due over the river is the well located on the Barthe river is the well located on the Barnard farm and being drilled by Chibertson & Company. This well is quite a distance ahead of defined territory, and is expected to show up good, in the event-of its coming in a duster, a large amount of money will be dropped by Sistersville people. The well is expected in to-night or to-morrow.

While there is little doubt as to the Mellon Company getting oil out near Bealisville, no one seems able to say what amount the well is good for.

The Mountain State Gas Company is making arrangements to connect the line supplying this city with the gas wells on Indian creek. This extra supply of gas is badly needed.

Excitement still continues in the Indian creek territory in the vicinity of the Devonian Oil Company's well on the Bullman farm. In the neighborhood of thirty-five derricks have been erected and at least a dozen wells have commenced drilling. Derricks are being erected just as fast as the material can be gotten on the ground.

The Victor Company's Kyle well is

erected just as fast as the material can be gotten on the ground.

The Victor Company's Kyle well is now reported to be making about 280 barrels a day, and is really the well that opened up the Indian creek territory. Among others holding territory in this section is the Standard, which through its recognized branch, the Carter Oil Company, has something over 4,000 acres out in this territory, some of which is close up to devalopments.

#### In Marsholl County.

Jolly Brothers are putting up a rig on the Hammond farm, in Marshall coun-try, on Holmes' run, three miles back of Moundsville. This territory has been well "touted" and it is predicted by many that a pool will be tapped in that neighborhood.

#### THE TELEPHONE LINE

To Connect Pittsburgh, Wheeling and Parkersburg Being Built. The long distance telephone line that

is to connect Wheeling and Pittsburgh with Sistersville, Parkersburg, Mariwith Sistersville, Parkersburg, Marietta and all the other towns in the southwest oil country, is being vigorously pushed and will be completed early in the season. It is already completed from Parkersburg to New Martinsville. Yesterday Mr. T. F. Lowther, of New Martinsville, appeared before the county comissioners of Marshall county at Moundayille and secured the right of way for the line from the southern part of Marshall county to the Ohlo county line. From Benwood the line is to be built to Wheeling to a connection with the long distance line now in use here. Side lines are to be built to the oil towns in Monroe country, Ohlo, and in Tylor, Pleasants and Wood counties, in West Virginia. It is an improvement that will be particularly improvement that will be particularly appreciated by the Pittsburgh oil men

New Telephone Line. New Telephone Line.

A force of twenty-five linemen are now at work constructing a telephone line between Stanfeaville and Bridgeport along the right of way of the Cleveland & Pritaburgh road, for the Central District (Bell) company, They are working down the river from Stenbenville and are now about four miles above Martin's Ferry. This will give more direct telephone communication between Wheeling and Steubenville.

A banquet in honor of the supreme lodge will be held Sunday evening.

Davis Resolution will Pass. Davis Resolution will Pass.
WASHINGTON, D. C., Jan. 24.—Senator Lodge has made a canvass of the servate on the Davis resolution aditrating the Monroe dectrine and says that he has not been able to find more than eight votes that will be east against it. He says there are still a large number of speeches to be made on the subject and that it is too early to say when the vote will be taken, but that the debate will be pressed along rapidly after the bond bill shall be disposed of.

#### Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of clokness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrupof Figs, promptly romoves. This is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial offects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skilling physicians, but if in need of a laxative then one should have the best, and with the well-informed everywhere. Syrupot Figs stands inghest and is most largely used and gives most general satisfaction.

#### THE AWFUL HOLOCAUST

In Russia During a Fire at a Circua Thea tre-Seventy Persons Perish.

ST. PETERSBURG, Jan. 24.—The of-ficial investigation into the cause of the fire which destroyed the circus theatre at Erkaterinoslav, capital of the south Russian government of that name, has not been able to establish the real cause of the disaster, which is believed to have resulted in the loss of over seventy actress, who appeared terror-stricker on the stage during a children's mat-ince. She screamed with fright and threw the whole audience into a panic, as the theatre immediately began to fill threw the whole audience into a panic, as the theatre immediately began to fill with smoke and flame. A terrible rush yeas made for the doors of the building, but only two out of the eight exits were open, the others having been securely closed on account of the cold weather. The iron roof of the building colleged, killing numbers of persona. The life iron roof of the building colleged, killing numbers of persona. The victums were mainly children and in addition to those burned to death, suffocated by the smoke or crushed by the falling of the roof, many were trampled to death. Bodles are still being recovered from the ruins, and the opinion is expressed that the first estimate that 70 lives were lost will be shown to be short of the reality. Besides those who lost their lives, a very great number of children were more or less injured in the rush towards the doors.

All the performers, who were in their dressing rooms or at the back of the stage when the fire broke out, succeeded in escaping. The actress who first gave the alarm is blamed for losing her presence of mind. The manager of the theatre has been "arrested and is held a prisoner, pending the termination of the official investigation into the cause of the fire. There are severe penalties for not having the exits of the theatre ready for use, but, in winter time, in most parts of Russia, the rules bearing upon this subject are frequently disregarded.

#### PANIC AT A FIRE.

Occupants of a Chicago Building Have a Narrow Escape. CHICAGO, Jan. 24.—Fire which broke

out in the old stock exchange building at the northeast corner of Dearborn and Monroe streets to-day, caused a panic among the occupants. The building is among the occupants. The building is a six-story structure and the location is one of the most crowded streat corners in the city. The people on the fifth floor when the flames were discovered found their way to the stair cases barred by smoke and resorted to the five escapes.

One woman, completely unnerved, appeared at a window on the Monroe street side and endeavored to leap to the

street. She was selzed by a man who held her until the firemen raised a lad-

der and rescued her.

The scenes attending the efforts of the people in the building to escape were witnessed by a throng of thousands which quickly gathered in the neighboring thoroughfares.

#### LAKE PROTECTION

Necessary in Time of War-Columbus

COLUMBUS, O., Jan. 24.—Captain James M. Burns, seventeenth United States infantry, in a paper published here to-day and which was read before the lyceum of the officers of his regiment, points out the present and poss ible forces which England would be able to marshal upon short notice along the lakes and says Chicago or Cleveland would be the place first assaulted. The capture of Chicago would cut of northwestern flour, rrain and meat from the east. The capture of Cleveland would result in an effort to cut rall communication between the east and west at Columbus, Chillicothe and Portsmouth, which would blockade everything from the west, including freight for the Chesspeaks & Ohio. Captain Burns says the capture of Columbus would be of more importance to a British army than the capture of any port south of Fortress Monroe and argues for better lake defenses. One suggrestion is a canal one hundred feet wide at he bottom and twenty feet deep across the state of New York to use for commerce in time of peace and to admit our smaller naval vessels to the lakes in thise of war. ible forces which England would

Lietemant Ross, of the Corwin, told how the crews of the different cutters at Unalaska last September were invited to a whisky and tobacco soiree, on board the British ship Pheasant. According to Ross, as Healy was returning home from the festivity, he was so overcome that he walked over the edge of the wharf, thinking it was his bunk. After his mishap was known, witness said ib caused great rejoicing throughout the fleet.

The defense tried to prove, through engineer Jones and Lieutenant Daniels with drunkenness and unofficerlike con-

engineer Jones and ineutenant Danies that Captain Healy was the victim of a conspiracy on the part of the young offi-cers. These witnesses disclaimed any knowledge of such conspiracy.
